

RETIREMENTTM PLAN

PORTFOLIO BUILDER

WHAT IS THE RETIREMENT PLAN ₿™ PORTFOLIO BUILDER?

The Retirement Plan ₿™ Portfolio Builder is the fastest and easiest way to set up a Bitcoin and crypto centered Retirement Plan that considers the unique risks of the Bitcoin and crypto industry. Retirement Plan ₿™ Portfolio Builder is set up with the long term in mind through a global asset protection structure that is easy to pass on when inheritance planning.

WHY BITCOIN?

Bitcoin is risky as it's only been with us for *12 years, but equally it has been the highest performing asset for **10 of the last 12 years and the highest performing investment in history.

Past performance is not a guarantee of future returns, but companies like Tesla, government states like Miami, banks like Goldman Sachs, billionaires like Sir Richard Branson, famous hedge fund managers like Paul Tudor Jones and everyday people all around the world are allocating a percentage of their savings, company reserves and retirement funds into Bitcoin as a form of protection from traditional market uncertainty, banks and governments.

Sir Richard Branson

Paul Tudor Jones

Bitcoin gives individuals the ability to own their own money and protect themselves from bank bail-ins like we saw after the 2008 financial crisis.

Bitcoin gives people the ability to spend money digitally, globally and freely without any middlemen to stop, charge fees and block legal transactions.

Bitcoin has a completely fixed supply of 21 million Bitcoin that can never be changed. Traditional currency is continually printed, diluting its value and making those that save it work harder.

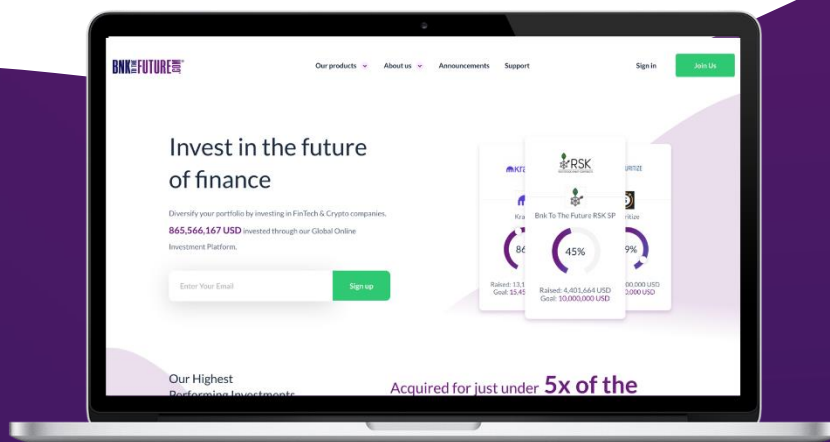

**21 million
Bitcoin**

**THIS IS WHY MORE AND
MORE COMPANIES,
GOVERNMENTS AND
INDIVIDUALS ARE
LOOKING TO BITCOIN.**

WHAT IS NEEDED TO BUILD A RETIREMENT PLAN CENTERED AROUND BITCOIN?

A diversified Bitcoin and crypto centered retirement plan has to meet several criteria to meet the Retirement Plan ₿™ investment philosophy that was originally developed by the longest standing company in Bitcoin - BnkToTheFuture.com and early Bitcoin investor Simon Dixon.

WHO IS BNKTOTHEFUTURE.COM?

BnkToTheFuture.com is the world's largest online investing platform for investing in the equity of Bitcoin, FinTech and Crypto companies. Investors have invested almost \$1bn in the shares of companies such as Coinbase, Robinhood, Kraken, BitStamp, BitFinex, Blockchain.com and many of the largest companies in the sector. BnkToTheFuture.com is the brand and company behind Retirement Plan ₿™.

WHO IS SIMON DIXON?

Simon Dixon is the author of the very first published book in the world to include Bitcoin - '**Bank To the Future: Protect Your Future Before Governments Go Bust**'.

Simon Dixon spoke at the very first non-US Bitcoin conference in the world.

He spoke at the very first non-US Bitcoin conference in the world and is an early investor in over 100 companies that built the Bitcoin industry including Coinbase, Kraken, BitStamp, BitFinex, Circle, Blockchain.com, BitPay and many others.

Simon Dixon is the Co-Founder & CEO of BnkToTheFuture.com that has invested almost \$1bn in the industry and he is also the creator of Retirement Plan ₿™.

The early investor in over 100 companies that built the Bitcoin industry.

and many others...

What Is The Criteria Of The Retirement Plan ₧™ Approach?

01 | Accumulate Bitcoin

Retirement Plan ₧™'s goal is to accumulate as much Bitcoin as possible in an investors retirement plan so it benefits from any long term growth whilst managing a number of risks through diversifying using the wider crypto markets and crypto assets.

Retirement Plan ₧™ is centered around the accumulation of Bitcoin as a long term speculative store of value.

02 | Accumulate More Bitcoin

Outside of Bitcoin there are thousands of crypto assets that meet different needs and use cases. Retirement Plan ₧™ uses the wider crypto markets in order to accumulate more Bitcoin using a more conservative risk managed approach.

A percentage of Retirement Plan ₧™ should capitalise on the growth of alternative decentralised financial products. The goal is to diversify risks whilst taking larger risks to accumulate more Bitcoin.

03 | Generates Compounded Income

Retirement Plan ₿™ uses alternative lending products to generate compounded income in a risk managed environment. A percentage of the retirement Plan ₿™ benefits from both the growth in the value of Bitcoin, but also generates compounded income.

04 | Survives Bitcoin Bear Markets

Bitcoin is extremely volatile and can crash very fast and very hard. Retirement Plan ₿™ uses more advanced equity and stablecoin strategies in order to protect it from some of the downside risk in a Bitcoin bear market to benefit from the hard times. A percentage of Retirement Plan ₿™ is used to perform and generate income in a Bitcoin bear market using stablecoins and also invest in the shares of Bitcoin and crypto companies that benefit from both bull and bear markets for qualifying investors.

05 | Diversification

If one strategy goes wrong, Retirement Plan ₿™ is designed to be able to rely on other strategies by diversifying different risks. Retirement Plan ₿™ manages risks by diversifying across 5 Bitcoin and crypto strategies.

06 | Built To Last

Retirement Plan ₿™ uses the best elements of a handful of diversified global jurisdictions and partners to perform different functions and maximise asset protection, custody, Trust structures and easy inheritance planning. Jurisdictions include the best of Cayman Islands, Hong Kong, UK and US.

07 | Asset Protection & Inheritance in Mind

Retirement Plan ₿™ is designed to provide a long term asset protection structure, assets are legally separate from other customers through your own trust account and it simplifies the tax categorization of cryptocurrency transactions reducing the administration associated with maintaining a crypto portfolio.

RETIREMENT PLAN

PORTFOLIO BUILDER

SIMON DIXON COULD NOT FIND IT ANYWHERE...

It's the Retirement Plan that Simon Dixon always wanted, but could not find and therefore created it for himself. He is now making it available to the world who wish to benefit from the growth of Bitcoin and the wider crypto markets the smart way.

...So he created it for himself.

And now it's available for you.

HOW DOES THE RETIREMENT PLAN ₧™ PORTFOLIO BUILDER WORK?

The Retirement Plan ₧™ Portfolio Builder is the easiest, most cost effective and fastest way to get started building a retirement plan that meets the 7 criteria listed above. This is achieved in 3 simple steps when you setup your Retirement Plan ₧™ Portfolio Builder:

Your Own Asset Protection Structure

01

We setup a low cost Asset Protection Structure for you to hold your Retirement Plan ₧™ assets in a tax efficient jurisdiction (owned by you, owned by your family trust/ Retirement Plan provider, owned by your company).

Your Own Custody Account

02

We set up a custody account for you where all your funds and assets are held on trust in the name of the entity with a regulated custodian.

Your Own Strategy Mix

03

All funds you send to your account are automatically invested in line with your personalised Retirement Plan ₧™ strategy mix every time you deposit funds.

That's it.

You build your Retirement Plan ₧™, gain complete exposure to Bitcoin and the wider crypto markets the smart way.

WHAT ARE THE 5 RETIREMENT PLAN ₿™ STRATEGIES?

Strategy 1 Bitcoin Investing

Invest a lump sum then a set amount each month into Bitcoin.

Strategy 2 Crypto Equity Investing

Invest a set amount each month into a diversified high risk, high return portfolio of FinTech private equity companies consisting of both early stage startups and more established crypto companies. This option is only available to qualifying investors.

Strategy 3 Bitcoin Lending

Invest a set amount each month into Bitcoin and receive a Bitcoin denominated interest rate for lending your Bitcoin and re-invest your Bitcoin returns each period you receive it for compounding.

Strategy 4 Stablecoin Lending

Invest a set amount each month into a USD denominated stablecoin that pays a variable APR assuming it maintains its peg to the dollar while you re-invest your USD stablecoin returns each period for compounding.

Strategy 5 Ether Lending

Invest a set amount each month into Ether and receive a Ether denominated return for lending it, while you re-invest your Ether returns each period for compounding. This allows you to benefit from faster moving innovation and the backbone of Decentralised Finance (DeFi).

DISCLAIMERS

Information contained in this brochure and any associated videos or materials provided herein from www.BnkToTheFuture.com, www.RetirementPlanB.com or affiliated website or other third party website are for educational purposes only. Under no circumstances are we providing you with financial, legal or tax advice. You acknowledge that you are solely responsible for any losses as a result of your own trading or investment activities. Any content referring to past performance is not an indication of future performance. Any third party service provider referred to in content is not an endorsement or recommendation to use the same.

Bnk To TheFuture is registered as a securities business with the Cayman Islands Monetary Authority (CIMA No.1189274). The BnkToTheFuture.com website is owned and operated by Bnk To The Future (company number 296093) Incorporated and registered in Cayman Islands under the Companies Law 2013.

Investing in private placements, Cryptocurrencies, security tokens and early stage businesses involves a high degree of risk, including, but not limited to, illiquidity, lack of dividends, loss of investment and dilution, and those investors who cannot afford to lose their entire investment should not invest. Purchases of Tokens and Cryptocurrencies are even higher risk including, but not limited to, complete loss of capital, regulatory & tax uncertainty, cyber-security attacks, Blockchain risks and no shareholder rights.

BnkToTheFuture.com is targeted exclusively at investors who are sufficiently sophisticated to understand these risks and make their own investment decisions.

You will only be able to invest via BnkToTheFuture.com once you are registered as sufficiently sophisticated. Investments may lose value, there are no guarantees, securities and investments are not FDIC Insured and neither BnkToTheFuture, its affiliated companies, nor our affiliated broker-dealers BMI Capital International LLC. offer investment, legal or tax advice.

US residents agree to register with BMI Capital International LLC, a registered US broker-dealer with FINRA and member of SIPC, who operate sections of BnkToTheFuture.com where Regulation D offerings filed with the SEC are conducted. Activities with respect to US resident investors are conducted by BMI Capital International LLC. Registration does not imply a certain level of skill or training. Individuals and firms may only transact business in a jurisdiction after satisfying its licensing and qualification requirements or after being excluded or exempted.
